

## The Webinar Program

NCGE Webinar Program is a live series that features a robust program of geography educators from around the world. The programs not only offer an opportunity to learn some new skills and interact with your geography educator colleagues but also refine your skills and experience new tools and resources.

Webinars are free to NCGE Members and just \$20 for Non-members. We have several partnership webinars each year which are free to everyone.

We record all of our webinars. The recordings are available to all attendees of each webinar and then stored in the member archives as a free benefit and rich resource for our membership.

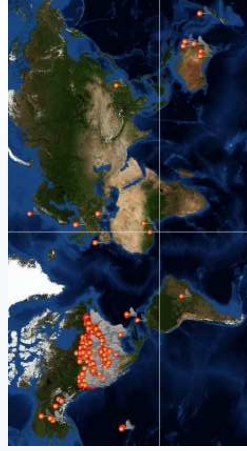

If you love the program and don't want to miss a moment, we have a Season Pass available. This service is free to our members and \$195 for non-members.

Have a look at the schedule and sign up for an informative session today!

## About NCGE

NCGE is a non-profit organization, chartered in 1915 to enhance the status and quality of geography teaching and learning. NCGE supports geography teaching at all levels—from kindergarten through university. Our members include both U.S. and International teachers, professors, students, businesses, and others who support geographic education.
